MESSAGE FROM DIRECTOR WOODSON

Crime in Wyoming 2016 is a compilation of Uniform Crime Reporting (UCR) statistics from January through December, 2016.

The Wyoming UCR Program became fully operational in June, 1977, and has grown since then. As stated in the first annual UCR report, *Crime in Wyoming 1978*, the goals of the UCR Program were originally stated, and they still hold true today:

- Inform the Governor, Legislature, other governmental officials, and the public as to the nature of the crime problem in Wyoming
- Provide law enforcement administrators with criminal statistics for administrative and operational use
- Determine who commits crimes by age, sex and race in order to find the proper focus for crime prevention and enforcement
- Provide proper base data and statistics to measure the workload and effectiveness of Wyoming's Criminal Justice System
- Provide proper base data and statistics for research to improve the efficiency, effectiveness and performance of Criminal Justice Agencies
- Provide base data and statistics to measure the effects of prevention and deterrence programs
- Provide base data to assist in the assessment of social and other causes of crime for the development of theories of criminal behavior

To continue our commitment on streamlining and improving the way crime statistics are collected, the Division of Criminal Investigation is participating in the National Crime Statistics-Exchange (NCS-X) Project that assists in the development of a National Incident-Based Reporting System (NIBRS) for state UCR programs. This is a response to the Federal Bureau of Investigation announcement that it will “discontinue its Summary Reporting System (SRS) for crime statistics and fully transition the UCR program to the data-rich (NIBRS) data collection” by January 1, 2021. For more information on our transition please visit <http://wyomingdci.wyo.gov/dci-criminal-justice-information-systems-section/uniform-crime-reporting>

Thank you,

Steve Woodson

Steve Woodson, Director
Division of Criminal Investigation

INTRODUCTION TO UCR

This annual report of Crime in Wyoming presents data on reported crime from January through December, 2016.

The data presented in this report was compiled from Uniform Crime Reporting (UCR) records submitted by contributing law enforcement agencies. These records are designed to collect pertinent standardized data at the city, county and state levels, and were prepared in compliance with the National Uniform Crime Reporting Program standards and definitions.

Agencies prepare UCR forms containing offense, clearance, arrest and supplemental information, and submit monthly reports to the State UCR Program, Criminal Justice Information Section, Division of Criminal Investigation, Office of the Attorney General¹. After processing, the reports are sent to the FBI for use in compilation and analysis of national level crime statistics.

Sixty-eight law enforcement agencies report UCR data, which serve jurisdictions representing 97.1 percent of the State's population². Twenty sheriffs' offices and forty-eight police departments contributed UCR reports in 2016.

For Part I offenses, information regarding the incident, certain supplemental crime information, and arrest data is collected, however, the UCR Program collects only *arrest* data for Part II offenses.

The Domestic Violence Reporting Program information was compiled from data submitted by all Wyoming law enforcement agencies within whose jurisdiction incidents of domestic violence occurred³.

The *Hate Crime Reporting Summary* has been compiled in response to the *Hate Crime Statistics Act of 1990*. The Summary's data was compiled from those agencies submitting reports for each particular quarter of 2016.

Human Trafficking collection was implemented due to enacting of the *William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008*. This act requires the FBI to collect human trafficking offenses as Part I violent crimes. Two additional Part I offenses for Human Trafficking in order to collect offense and arrest data were created within the UCR System.

Beginning in 2016, the Division of Criminal Investigation's Uniform Crime Reporting Unit, is participating in the National Crime Statistics Exchange Project that aims to modernize crime statistics through the implementation of a National Incident-Based Reporting System (NIBRS). It is our goal to implement this new method of reporting by the Federal Bureau of Investigation's deadline of January 1, 2021.

¹See W.S. 1977 7-1-102 for legislation mandating the reporting of crime information to the Attorney General's Office.

²Based on estimates calculated from population data by the U.S. Bureau of Census and the National UCR Program.

³See W.S. 7-20-107(b) mandating the reporting of all domestic violence incidents to the Division of Criminal Investigation, Office of the Attorney General.

UNIFORM CRIME REPORT DEFINITIONS

Offenses in Uniform Crime Reporting are divided into two groups designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number of offenses cleared by arrest or exceptional means, and the number of persons arrested are reported. Only arrest data is reported for Part II offenses.

PART I (INDEX) OFFENSES:

1. **CRIMINAL HOMICIDE** - (a) *Murder and Non-Negligent Manslaughter*: The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) The killing of a felon by a law enforcement officer in the line of duty; and (2) The killing of a felon, by a private citizen, while in the act of committing a felony, (b) *Manslaughter by Negligence*: The killing of another person through gross negligence. This excludes traffic fatalities. Wyoming collects both forms of homicide under the murder category.
2. **FORCIBLE RAPE** - Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.

Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.
7. **MOTOR VEHICLE THEFT** - The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on the surface and not on rails. Specifically excluded from this category are motorboats, construction equipment, airplanes, and farming equipment.
8. **ARSON** - Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

9. **HUMAN TRAFFICKING- COMMERCIAL SEX ACTS**- Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

THE CRIME INDEX

The offenses which comprise the Crime Index are considered serious, either by their nature or by the frequency with which they occur. Each offense presents a common law enforcement problem. Crimes within the Index are further categorized as Violent Crimes (murder, forcible rape, robbery and aggravated assault) or as Property Crimes (burglary, larceny-theft, and motor vehicle theft). By congressional mandate, arson was added as a reportable offense in 1979. Arsons data collection is done separately, and except where noted as the “Modified Crime Index,” it is presented independently of other offense data in this report.

VIOLENT CRIMES

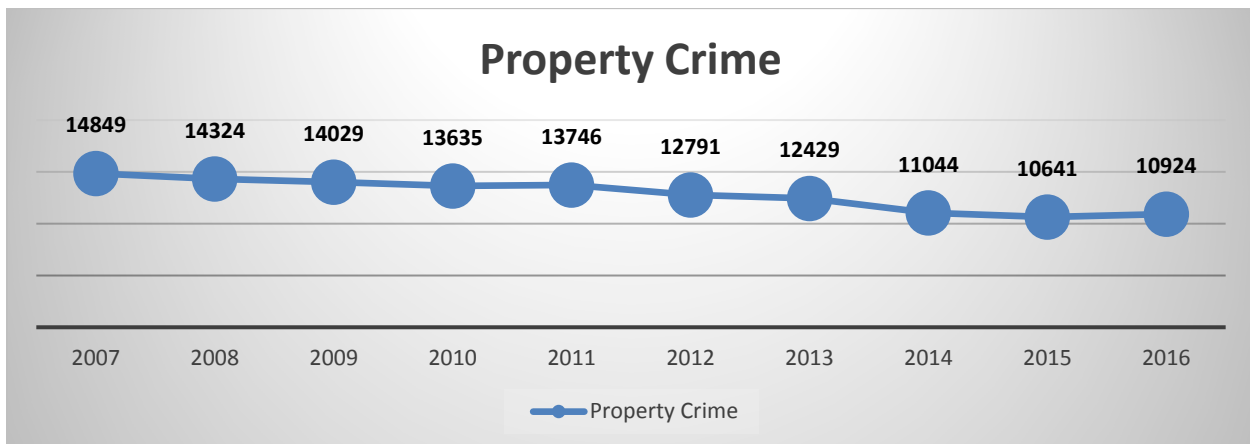

Violent crimes involve the element of personal confrontation between the perpetrator and the victim and entail the use or threat of force or violence. By their very nature, violent crimes are considered more serious than property crimes.

*Refer to page 7 of this report for a complete list of agencies whose data is not reflected in this report

PROPERTY CRIMES

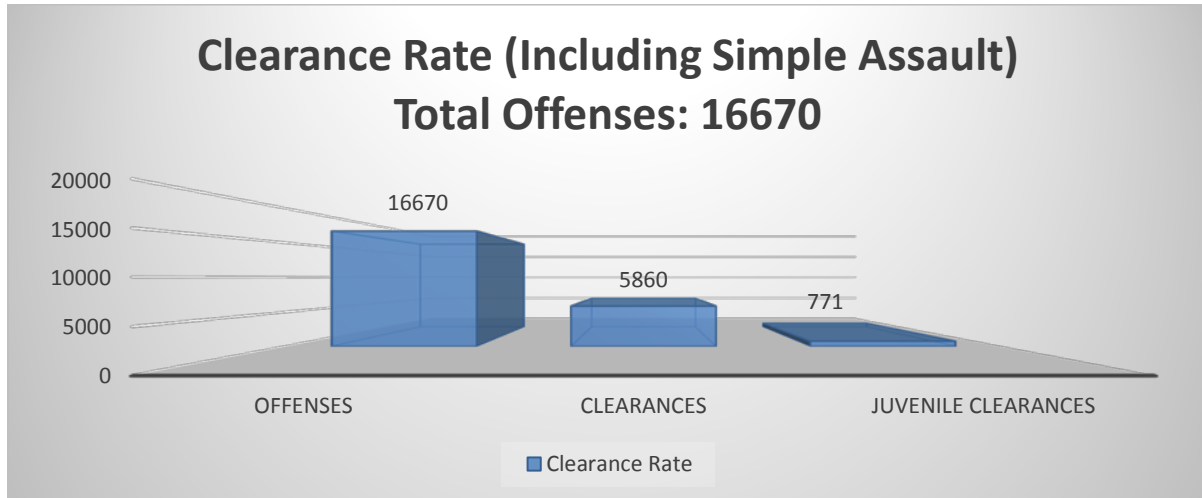

Property crimes entail the attempt or actual taking of someone's property by another. Although property crimes are less serious in nature than their violent crime counterparts of the Index, they represent, by far, the bulk of the total Crime Index.

*Refer to page 7 of this report for a complete list of agencies whose data is not reflected in this report

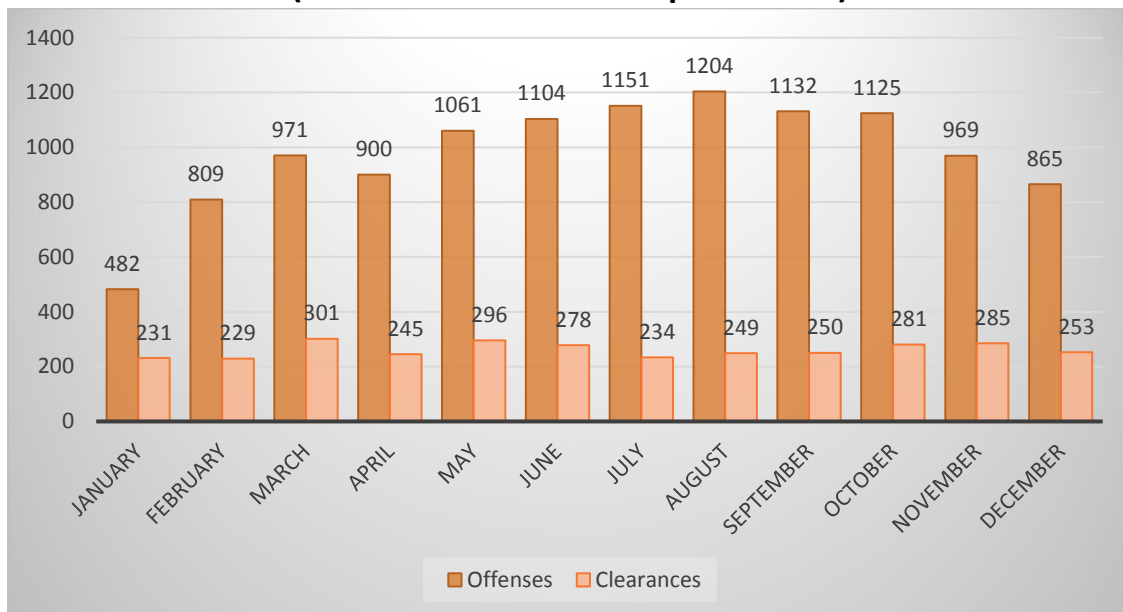

CLEARANCES

For Uniform Crime Reporting purposes, an Index offense is cleared when: 1) a law enforcement agency has identified the offender, 2) there is sufficient evidence to charge the offender, and 3) the offender is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Clearances are also recorded in exceptional circumstances when some element beyond the control of the law enforcement agency precludes formal charges being brought against the offender. For example: death of offender, offender incarcerated in another jurisdiction, etc.

Monthly Offense and Clearance Totals (Excludes Arson and Simple Assault)

CRIME RATES

Crime rates represent the number of crimes in relation to the population of a given jurisdiction. All crime rates presented in this report are per 10,000 population unless otherwise specified. By UCR definition, the victims of forcible rape are both male and female. In addition, the estimated "covered population" represents the Wyoming population that is covered by law enforcement agencies who contributed UCR data, and is the population base used in calculating crime rates.

Crime rates are calculated by dividing the number of offenses by the population and multiplying the result by 10,000. The population base figures used for this report were compiled from U.S. Census Bureau population estimates for cities/towns, counties and states. The National UCR Program calculated the 2016 state population using U.S. Census Bureau growth rates data.

* The Percent Change figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change. Please note that the population used is the estimated population for the entire state.

⁴Arson property value is an estimate of damage.

FORCIBLE RAPE

Forcible rape is defined in the Uniform Crime Reporting Program as “penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim” (UCR Handbook, 32). Included are attempts or assaults to commit rape. Statutory rape (without force) and other sex offenses are not included. One offense is counted for each victim raped or upon whom an attempt to forcibly rape has been committed.

AGGRAVATED ASSAULT

Aggravated assault is defined as an unlawful attack, or attempt to attack, by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. In other words, all assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

Simple assault is *not* a Crime Index offense; however, it is collected under the assault category for quality control and for the purpose of reviewing total assault violence.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED (LEOKA)

All assaults on law enforcement officers (having full arrest powers) in which the officer sustained injury or in which a weapon was used which could have caused serious injury or death are included in this section. Also counted are those sworn officers who were not injured, but force was used against the officer. An offense is counted when an officer is assaulted in the line of duty, even though in a "off duty" status, where he/she is performing official law enforcement duties.

HATE CRIME REPORTING SUMMARY

In response to a growing concern about hate crimes, the President, on April 23, 1990, signed into law the "Hate Crime Statistics Act of 1990" (hereafter "Act"). The Act requires the Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage or vandalism of property." The Attorney General is required to begin acquiring hate crime data in calendar year 1990. The Attorney General has delegated his responsibilities under the Act to the Director of the FBI. The FBI's Uniform Crime Reports (UCR) Section has been assigned the task of developing the procedures for, and managing implementation of, the collection of hate crime data.

The following represents a summary of the Hate Crime Incident Reports submitted by UCR contributors for the year 2016.

DOMESTIC VIOLENCE REPORT

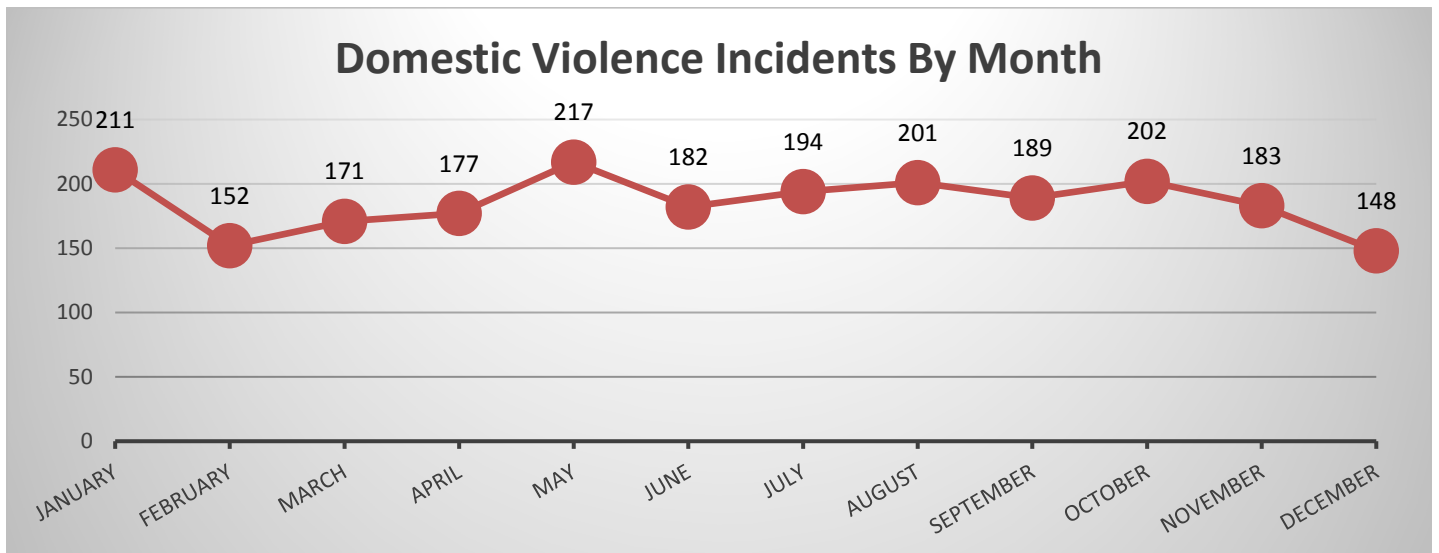

The following domestic violence information was provided by Wyoming law enforcement agencies and compiled by the Criminal Records Section, Division of Criminal Investigation, Office of the Attorney General, in compliance with W.S.S. 7-20-107(a)(b) and W.S.S. 6-4-404.

The Domestic Violence Reporting Program, which began January 1, 1988, reflects domestic violence information as submitted by Wyoming law enforcement agencies on a monthly basis.

Factors involved which contribute to the amount of domestic violence incidents reported for any one month include: repeated incidents throughout the month involving the same individuals: one offender/multiple victims; and, mutual confrontation where the involved subjects are both victim and offender.

When more than one type of violence occurs, or multiple dispositions are reported for a single incident, only the most serious and/or consequential action is counted for reporting purposes of this program.

CARGO THEFT

The U.S. Congress passed the *USA PATRIOT Improvement and Reauthorization Act of 2005*, a provision was included requiring the Attorney General of the United States to “take the steps necessary to ensure that reports of cargo theft collected by federal, state, and local officials are reflected as a separate category in the FBI Uniform Crime Reporting (UCR) System.” The Attorney General called on the FBI to study the concern and fulfill this requirement, collaborating with the FBI’s partner law enforcement agencies around the nation. The FBI’s Criminal Justice Information Services Division began work to define cargo theft and develop the requirements to collect the data. Wyoming began collecting cargo theft incidents in 2012.

Cargo Theft is the criminal taking of any cargo including, but not limited to, goods, chattels, money, or baggage that constitutes, in whole or in part, a commercial shipment of freight moving in commerce, from any pipeline system, railroad car, motor truck, or other vehicle, or from any tank or storage facility, station house, platform, or depot, or from any vessel or wharf, or from any aircraft, air terminal, airport, aircraft terminal or air navigation facility, or from any intermodal container, intermodal chassis, trailer, container freight station, warehouse, freight distribution facility, or freight consolidation facility. For purposes of this definition, cargo shall be deemed as moving in commerce at all points between the point of origin and the final destination, regardless of any temporary stop while awaiting transshipment or otherwise.

HUMAN TRAFFICKING

In January 2013, the national UCR Program began collecting offense and arrest data regarding human trafficking as authorized by the *William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008*. The act requires the FBI to collect human trafficking offense data and to make distinctions between prostitution, assisting or promoting prostitution, and purchasing prostitution.

To comply with the Wilberforce Act, the national UCR Program created two additional offenses in the Summary Reporting System and the National Incident-Based Reporting System for which the UCR Program has begun collecting both offense and arrest data. The definitions for these offenses are:

Human Trafficking/Commercial Sex Acts: inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

Human Trafficking/Involuntary Servitude: the obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

In addition to these changes, the national UCR Program staff has also updated the Supplementary Homicide Report form to incorporate a new circumstance code for human trafficking.
