INTRODUCTION

This annual report of Crime in Wyoming presents data on reported crime from January through December, 2013.

The data presented in this report was compiled from Uniform Crime Reporting (UCR) records submitted by contributing law enforcement agencies. These records are designed to collect pertinent standardized data at the city, county and state levels, and were prepared in compliance with the National Uniform Crime Reporting Program standards and definitions.

Agencies prepare UCR forms containing offense, clearance, arrest and supplemental information, and submit monthly reports to the State UCR Program, Criminal Justice Information Section, Division of Criminal Investigation, Office of the Attorney General¹. After processing, the reports are sent to the FBI for use in compilation and analysis of national crime statistics.

Sixty three law enforcement agencies report UCR data, which serve jurisdictions representing 98.3 percent of the State's population². Twenty-three sheriffs' offices and forty-one police departments contributed UCR reports in 2013.

The UCR Program collects data on offenses which are categorized as Part I and Part II crimes. The Part I crimes include the "Crime Index" offenses of murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, and motor vehicle theft. Arson was added as a Part I offense in 1979, (referred to as the "Modified Crime Index"). For Part I offenses, information regarding the incident, certain supplemental crime information, and arrest data is collected, however, the UCR Program collects only *arrest* data for Part II offenses.

The Domestic Violence Reporting Program information was compiled from data submitted by all Wyoming law enforcement agencies within whose jurisdiction incidents of domestic violence occurred³.

The *Hate Crime Reporting Summary* has been compiled in response to the *Hate Crime Statistics Act of 1990*. Its data was received from those agencies submitting reports for each particular quarter of 2013.

OFFENSES IN UNIFORM CRIME REPORTING

Offenses in Uniform Crime Reporting are divided into two groupings designated as Part I and Part II crimes. Information on the number of Part I offenses known to law enforcement, the number of offenses cleared by arrest or exceptional means, and the number of persons arrested are reported. Only arrest data is reported for Part II offenses.

¹See W.S. 1977 7-1-102 for legislation mandating the reporting of crime information to the Attorney General's Office.

²Based on estimates calculated from population data by the U.S. Bureau of Census and the National UCR Program.

³See W.S. 7-20-107(b) mandating the reporting of all domestic violence incidents to the Division of Criminal Investigation, Office of the Attorney General.

THE PART I OFFENSES ARE AS FOLLOWS:

1. CRIMINAL HOMICIDE - (a) *Murder and Non-Negligent Manslaughter*: The willful (non-negligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, accidental deaths, and justifiable homicides are excluded. Justifiable homicides are limited to: (1) The killing of a felon by a law enforcement officer in the line of duty; and (2) The killing of a felon, by a private citizen, while in the act of committing a felony, (b) *Manslaughter by Negligence*: The killing of another person through gross negligence. This excludes traffic fatalities. While manslaughter by negligence is a Part I crime, it is not included in the Crime Index.

Examples are thefts of bicycles or automobile accessories, shoplifting, pocket-picking, or the stealing of any property or article which is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, "con" games, forgery, worthless checks, etc., are excluded.

THE CRIME INDEX

The offenses which comprise the Crime Index are all serious, either by their nature or by the frequency with which they occur, and each presents a common law enforcement problem. Crimes within the Index are further categorized as Violent Crimes (murder, forcible rape, robbery and aggravated assault) or as Property Crimes (burglary, larceny-theft, and motor vehicle theft). By congressional mandate, arson was added as a reportable offense in 1979. Its data collection is separate and except where noted as the "Modified Crime Index," it is presented independently of other offense data in this report.

VIOLENT CRIMES

Violent crimes involve the element of personal confrontation between the perpetrator and the victim and entail the use or threat of force or violence. By their very nature, violent crimes are considered more serious than property crimes.

PROPERTY CRIMES

Property crimes entail the attempt or actual taking of someone's property by another. Although property crimes are less serious in nature than their violent crime counterparts of the Index, they represent, by far, the bulk of the total Crime Index.

CLEARANCES

For Uniform Crime Reporting purposes, an Index offense is cleared when: 1) a law enforcement agency has identified the offender, 2) there is sufficient evidence to charge the offender, and 3) the offender is actually taken into custody. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one offense. Clearances are also recorded in exceptional circumstances when some element beyond the control of the law enforcement agency precludes formal charges being brought against the offender. For example: death of offender, offender incarcerated in another jurisdiction, etc.

CRIME RATES

Crime rates represent the number of crimes in relation to the population of a given jurisdiction. All crime rates presented in this report are per 10,000 population unless otherwise specified. By UCR definition, the victims of forcible rape are always female; therefore the rape rates are per 10,000 females. In addition, the estimated "covered population" represents the Wyoming population that is covered by law enforcement agencies who contributed UCR data, and is the population base used in calculating crime rates.

Crime rates are calculated by dividing the number of offenses by the population and multiplying the result by 10,000. The population base figures used for this report were compiled from U.S. Census Bureau population estimates for cities/towns, countries and states. The National UCR Program calculated the 2013 state population using U.S. Census Bureau grow rates data.

* The Percent Change figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency while controlling for missing reports. If an agency failed to report crime data for one or more months during 2013, the same months were excluded from the comparison with last year's reports. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change.

Arson property value is an estimate of damage.

AGGRAVATED ASSAULT

Aggravated assault is defined as an unlawful attack, or attempt to attack, by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. In other words, all assaults by one person upon another with the intent to kill, maim, or inflict severe bodily injury with the use of any dangerous weapon are classified under one of the aggravated assault categories. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

The simple assault category includes all assaults which did not involve the use of a firearm, knife/cutting instrument, or other dangerous weapon; also, assaults through the use of personal weapon (hands, fists, and feet) which did not involve serious or aggravated bodily injury to the victim. Simple assault is *not* a Crime Index offense; however, it is collected under the assault category for quality control and for the purpose of reviewing total assault violence.

LAW ENFORCEMENT OFFICERS KILLED OR ASSAULTED

All assaults on law enforcement officers (having full arrest powers) in which the officer sustained injury or in which a weapon was used which could have caused serious injury or death are included in this section. Also counted are those sworn officers who were not injured, but force was used against the officer. An offense is counted when an officer is assaulted in the line of duty, even though in a "off duty" status, where he/she is performing official law enforcement duties.

BURGLARY

The Uniform Crime Reporting Program defines burglary as the unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as burglary. Burglaries in the UCR Program are categorized into three sub classifications: forcible entry, unlawful entry where no force is used and attempted forcible entry. One offense is counted for each distinct operation.

STOLEN & RECOVERED PROPERTY

Supplementary reports relating to the value of property stolen and recovered are also provided by the participation law enforcement agencies. This supplementary report requires a value to be established for property stolen and recovered for each Crime Index offense.

When property is recovered in a different condition than what is was at the time of the theft, that value is used even though it's a lesser amount than when it was stolen. The "*value of property stolen*" refers only to property stolen incidental to crimes which occurred in a particular jurisdiction. Likewise, the "*value of property recovered*" includes only property originally stolen from that jurisdiction. However, it does not matter who recovers the property or where it was recovered.

INDEX OFFENSES BY CONTRIBUTOR

Crime Index offenses, excluding arson, by county and agency for January through December 2013, are presented in the table of 2013 Index Offenses by Contributor, totals and percent change figures are provided for agency comparison. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting “Percent Change” figures since a slight shift in the volume of offenses may result in a large percent change.

The 2013 estimated covered population figures are presented to provide the base used to calculate the crime rate per 10,000 population. For agencies desiring to calculate rates using their own population figures, the formula is as follows:

$$\text{Rate} = \frac{x}{y} \times 1,000 \quad \begin{aligned} \text{Where: } & x = \text{number of offenses} \\ & y = \text{the population base} \end{aligned}$$

To alter the “rate” figure, substitute another number for 1,000 (1,000, 500, 250). For example, if a community of 1,250 residents experience 49 offenses during the year and would like to know the crime rate per 1,000 residents, the formula would be:

$$\text{Rate} = \frac{49}{1,250} \times 1,000$$

Dividing 49 by 1,250 then multiplying that number by 1,000 we get 39.2 offenses per 1,000 residents.

* The Percent Change figures presented in this report were calculated by comparing the number of offenses reported by each contributing agency while controlling for missing reports. If an agency failed to report crime data for any months during 2013 the same months were excluded from the comparison with last year's reports. Given the comparatively low volume of several of the Index offenses, caution must be used when interpreting Percent Change figures since a slight shift in the volume of offenses may result in a large percent change.

University & College population and rate per 10,000 are included with the P.D. figures.

CLEARANCES OF INDEX CRIMES

Index crimes reported can be cleared either by arrest (includes citation & summons) or exceptional means. However, no distinction between cleared by "arrest" and "exceptional means" is made on the report. All index crime "clearances" involve the identity and location of a suspect.

An index crime is "cleared by arrest" or solved for UCR purposes when at least one person is:

1. Arrested, Cited, or Summoned
2. Charged with the commission of the offense: and
3. Turned over to the court for prosecution (whether following arrest, court summons or police citation).

In certain situations, law enforcement is not able to follow the three outlined steps under "cleared by arrest" to clear the offenses known to them. Many times all leads have been exhausted and everything possible has been done in order to clear a case. If the following questions can all be answered "yes" the offense can then be cleared "exceptionally" for UCR purposes.

1. Has the investigation definitely established the identity of the offender?
2. Is there enough information to support the arrest, charge, and turning over to the court for prosecution?
3. Is the exact location of the offender known so that the subject could be taken into custody now?
4. Is there some reason outside law enforcement control that precludes arresting, charging and prosecuting the offender?

The administrative closing of a case or the "clearing" of it by departmental policy does not permit exceptionally clearing an offense for UCR purposes, unless all four questions mentioned above can be answered "yes".

UCR recognizes the departmental policy in various law enforcement agencies that allow the discontinuance of investigation and administrative closing of cases in which all investigation has been completed. Clearances in accordance with UCR procedures should have no effect on whether an agency has internal policies as to "closing" a case or discontinuing active investigation.

It is reasonable premise that any offense that was "cleared" either had a suspect arrested, cited, summoned or a suspect was located and awaiting arrest, issue of a citation or an issue of a summons. When the suspect was arrested or issued a citation or summons it appears on the "Age, Sex, Race and Ethnic Origin of Person's Arrested" (ASR) form.

If the cleared offense did not show an arrest, citation, or summons entry on the ASR form, at some point in time, it can be assumed that the individual was not prosecuted.

The following table list index crimes "reported" and "cleared" (either by arrest, citation, summons or exceptional means) and index crime arrests, citations, and summons (A.C.S. Reported) as reported to the Division of Criminal Investigation through the UCR program.

A.C.S. (arrested, cited and summons) percentages greater than 100 are attributed to more than one offender being arrested for a single offense or arrests made for offenses from a prior year.

PERSONS ARRESTED

2013

Procedures employed in the UCR Program require that an arrest be counted on each separate occasion an individual is taken into custody, notified or cited for committing an offense in an agency's jurisdiction. Although several charges may be placed against a person at the time of arrest, only one arrest (usually the most serious) is counted each separate time he/she is taken into custody. Juvenile arrests are in accordance with the age definition of a juvenile for the National Uniform Crime Reporting Program, which is a person under 18 years of age.

Differences in arrest practices, policies, and enforcement emphasis among agencies influence the volume of arrests for various offenses, particularly those against public order, e.g. drunkenness, simple assault, vagrancy, disorderly conduct and related violations. However, arrest for serious crimes, e.g., robbery or burglary, are more likely to be consistent and uniform throughout all jurisdictions.

LAW ENFORCEMENT PERSONNEL

Because of varying demographic and other jurisdictional characteristics, the requirements for law enforcement service differ from one locale to another. For example, the needs of a community having a highly seasonal population may be extremely different from one whose population is relatively stable. In view of differing service requirements and responsibilities, caution must be used when attempting any comparison of law enforcement employee rates. The rates presented in the following tables should be viewed as guides or indicators, not as recommended or desirable police strengths. Adequate manpower for a specific locale can only be determined after thorough study and analysis of the various conditions which contribute to the requirements for law enforcement service in that jurisdiction.

DOMESTIC VIOLENCE REPORT

The following domestic violence information was provided by Wyoming law enforcement agencies and compiled by the Criminal Records Section, Division of Criminal Investigation, Office of the Attorney General, in compliance with W.S.S. 7-20-107(a)(b) and W.S.S. 6-4-404.

The Domestic Violence Reporting Program, which began January 1, 1988, reflects domestic violence information as submitted by Wyoming law enforcement agencies on a monthly basis. The following tables provide summary information concerning the number of incidents by county, day of week, time of day, type of violence and disposition.

Factors involved which contribute to the amount of domestic violence incidents reported for any one month include: repeated incidents throughout the month involving the same individuals: one offender/multiple victims; and, mutual confrontation where the involved subjects are both victim and offender.

When more than one type of violence occurs, or multiple dispositions are reported for a single incident, only the most serious and/or consequential action is counted for reporting purposes of this program.

HATE CRIME REPORTING SUMMARY

In response to a growing concern about hate crimes, the President, on April 23, 1990, signed into law the "Hate Crime Statistics Act of 1990" (hereafter "Act"). The Act requires the Attorney General to establish guidelines and collect, as part of the UCR Program, data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity, including where appropriate the crimes of murder, non-negligent manslaughter, forcible rape, aggravated assault, simple assault, intimidation, arson, and destruction, damage or vandalism of property." The Attorney General is required to begin acquiring hate crime data in calendar year 1990. The Attorney General has delegated his responsibilities under the Act to the Director of the FBI. The FBI's Uniform Crime Reports (UCR) Section has been assigned the task of developing the procedures for, and managing implementation of, the collection of hate crime data.

The following represents a summary of the Hate Crime Incident Reports submitted by UCR contributors for the year 2011.

Wyoming Sex Offender Registry

The first Wyoming sex offender statutes were enacted in 1994. The Wyoming Attorney General's Office, Division of Investigation (DCI) created an in-house database to track registrants for management. Dissemination of information was risk based with no public access.

In 1999, Wyoming sex offender statutes were modified so persons convicted of certain offenses were required to register as sex offenders. If an individual was convicted of an "aggravated sex offense", a required hearing was held to determine his/her risk of re-offense to the community. Once the hearing was completed, the district court classified the individual as posing a high, moderate, or low risk of re-offense. By that statute, only those determined to be at a high risk of re-offending were posted to the Web pages. Most registered sex offenders did not meet criteria for inclusion in the high risk category; therefore, the public did not see their identities posted to the Web pages.

The Wyoming Legislature in 2007 modified the sex offender statutes such that, when enacted, the Division of Criminal Investigation is required to post all registered sex offenders on an internet site accessible to the general public. In part, one purpose of this legislation is to bring Wyoming into substantial compliance with the required provisions of the Adam Walsh Child Protection and Safety Act of 2006 which was signed by the President in July, 2006. The Wyoming legislation contained an appropriation initiating implementation of scalable infrastructure for a sex offender registry system capable of managing compliance with the mandates of the federal legislation. The Wyoming Sex Offender Registration Act can be found in Wyoming State Statutes 7-19-301 through 7-19-308.

The State of Wyoming's goals and objectives were to create and maintain the Wyoming sex offender registration system (WySORS) that will allow the entry of sex offender registration data into a central repository at the time an individual registers with local law enforcement in Wyoming. This will rapidly provide sex offender registration details to the public website designed to enhance public safety by allowing public query of the system.

This web portal will allow public inspection of sex offender registry information based on a query by name or geographic location with the aid of mapping features. In addition to the capability of querying the WySORS database, the web portal allows public subscription to a sex offender record for the purpose of receiving notification when a sex offender moves into a geographic area, changes address or is removed from the registry.

The U.S. Department of Justice, National Sex Offender Public Registry (NSOPR) routinely receives sex offender registration information from each of the states, including Wyoming in the form of an index and a hyperlink to a specific offender record maintained on the DCI sex offender web portal. Wyoming continues this participation with the NSOPR through a new automated interface with the NSOPR.

WySORS supports an interface to the state's law enforcement message switching system (WCJIN). Through this interface, National Law Enforcement Telecommunications System, Inc. (NLETS) formatted queries are received from intrastate and interstate law enforcement with responses being returned through the same interface. In addition, the WCJIN interface provides access to the FBI's National Crime

Information Center (NCIC) system for purposes of entering and maintaining convicted sexual offender records. To facilitate the exchange of data from local law enforcement to the WySORS and NCIC, a uniform system of standardized NCIC data sets are used for the entering, modification, supplement and cancellation of sex offender data. This standardized dataset is used by local law enforcement and DCI administration to facilitate uniform communication with the Wyoming message switch, National Law Enforcement Telecommunications System (NLETS), and NCIC.

In 2011, the Crime Laboratory received accreditation under the International Standards Organization. The Crime Laboratory is accredited in the testing disciplines of controlled substances, trace evidence, biology, latent fingerprints, and firearms & tool marks.

SERVICES, COVERAGE AREA, AND STAFFING

The Wyoming State Crime Laboratory provides comprehensive analysis of criminal evidence for all of Wyoming's state and local law enforcement agencies as well as providing analysis services to federal agencies assisting state and local officers. Available services include the analysis of controlled substances, fire debris, clandestine laboratories, body fluid identification, DNA testing, latent fingerprinting, blood pattern analysis, firearm and tool-mark identification, hair and fibers, paints, gunshot residue, elemental analysis of unknown substances, and crime scene reconstruction.

Laboratory personnel also provide professional, expert, testimony in courts of law, training to state and local agencies in relevant subjects of forensic sciences, assistance at crime scenes, preservation of evidence, and assistance with unsolved "cold" cases upon request. The laboratory also assists with referrals to testing laboratories and/or individual experts for analysis requests that are outside of the current scope of our testing services.

The laboratory currently has a staff of twenty-seven; the director, one (1) administrative assistant, one (1) quality assurance manager, two (2) evidence technicians, and twenty-two (22) forensic scientists.
